Dashboard manual

Step-by-step guide with images

1. Sign in to Monetra
2. Log income and expenses
3. Categories
4. Charts and Analytics
5. AI financial advisor
6. Shared household
7. Profile, language and light/dark mode
8. Tips and FAQ

1. Sign in to Monetra

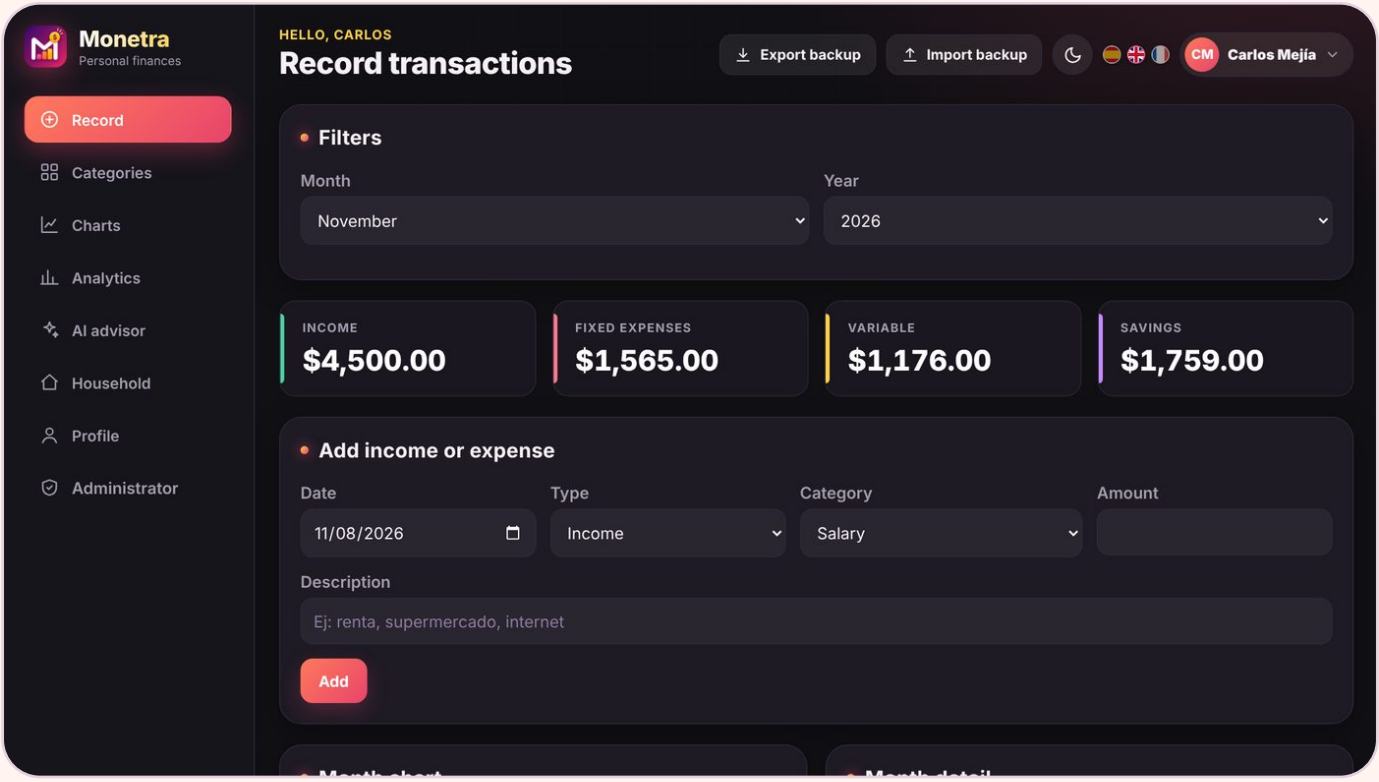

Open the Monetra page and press Sign in or Get started free.

1. Choose "Continue with Google" to sign in with one tap, or type your email and password.
2. If it is your first time, open the "Create account" tab, enter your name and confirm your email.
3. Forgot your password? Press the link under the Sign in button to get a recovery email.
4. Change the language with the flags (Spanish, English or French).

2. Log income and expenses

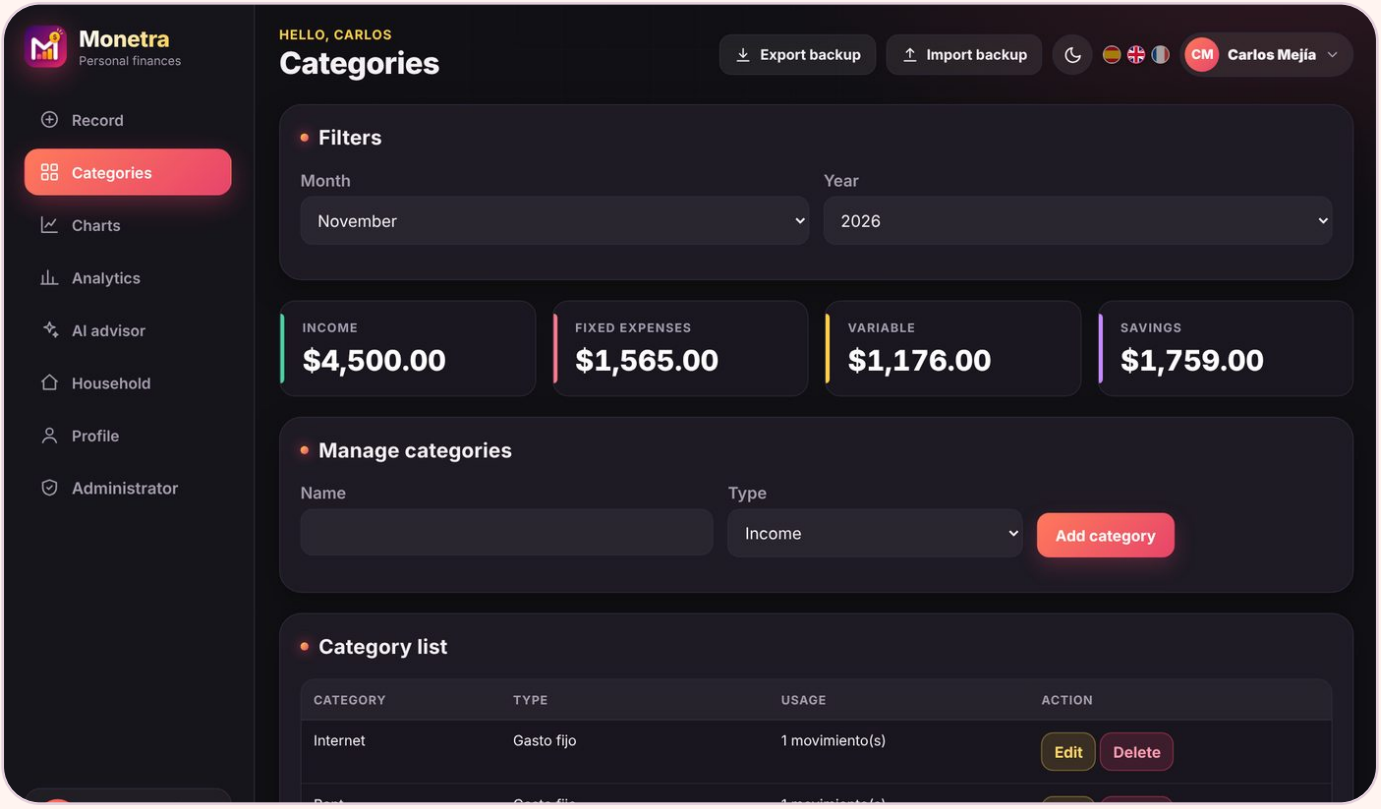

The "Log" screen is your command center. At the top you see the monthly summary.

1. Pick the month and year in Filters: the cards show Income, Fixed expenses, Variable and Savings.
2. Fill in Date, Type, Category and Amount. You can add a description.
3. Press Add. The entry appears in the month's Detail.
4. A fixed expense repeats every month. With Edit or Delete you change only the month you are viewing.

3. Categories

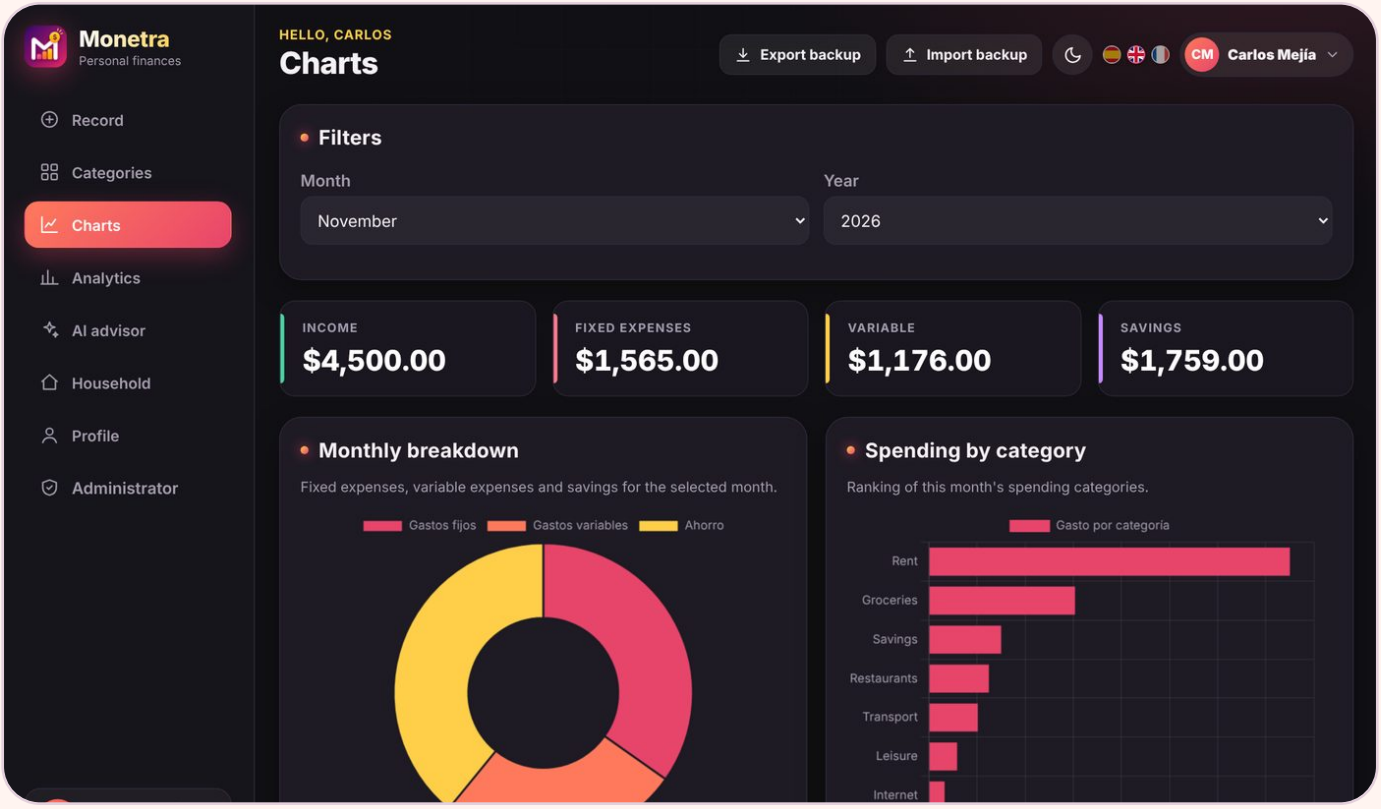

Organize your money with your own income, fixed, variable or savings categories.

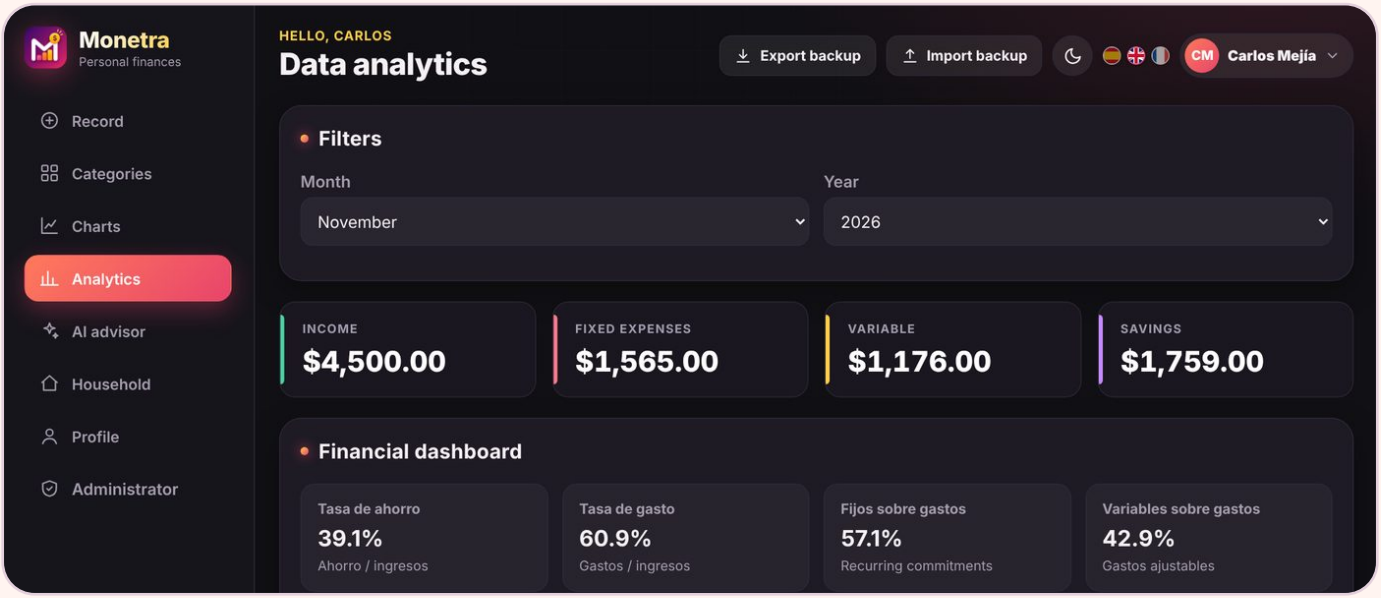

1. Open the Categories tab.
2. Type the name, choose the type and save.
3. Use Edit to rename it. You can only delete a category that has no entries.

4. Charts and Analytics

See where your money goes and spot opportunities.

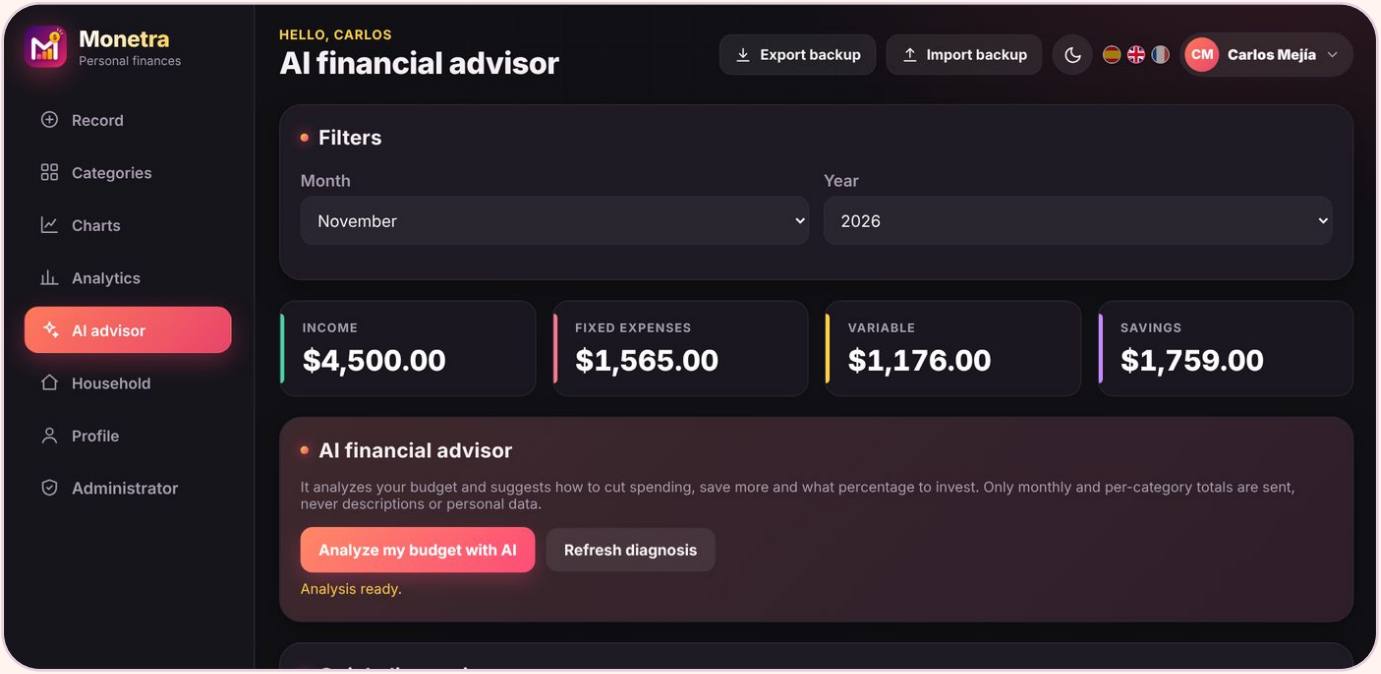

1. In Charts you see comparisons by month, categories and savings evolution.
2. In Analytics you find the 80/20 Pareto, the 50/30/20 rule, a heat map and your financial score.
3. All charts follow the month and year chosen in Filters.

5. AI financial advisor

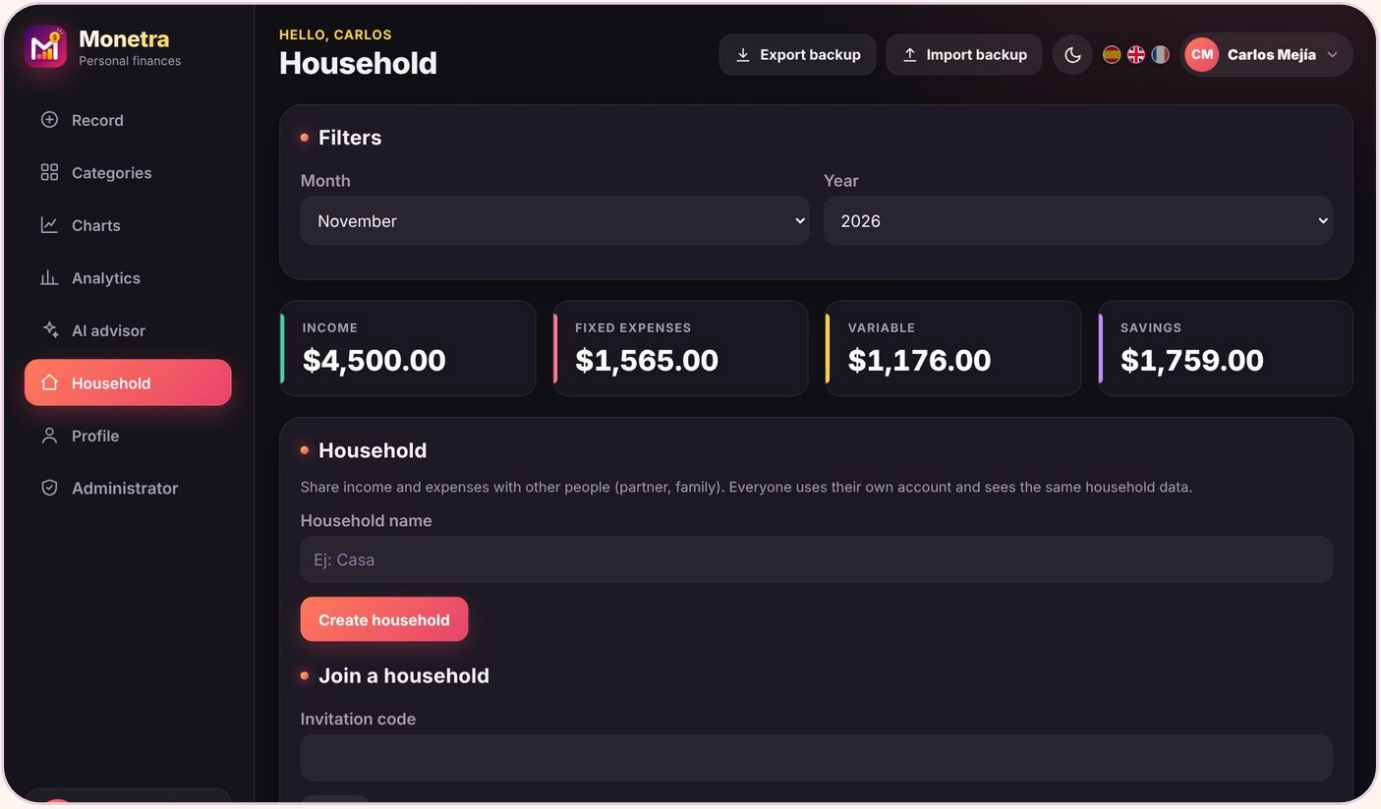

A tab that analyzes your budget and advises you like an expert.

1. Open "AI Advisor". The quick diagnosis appears instantly: score, savings rate and alerts.
2. Review the suggested plan: needs 50%, wants 30%, savings and investing 20%.
3. Press "Analyze my budget with AI" to get detailed recommendations: where to cut, how to save and how much to invest.
4. Only monthly and per-category totals are sent; never descriptions or personal data. There is a daily limit of queries.

6. Shared household

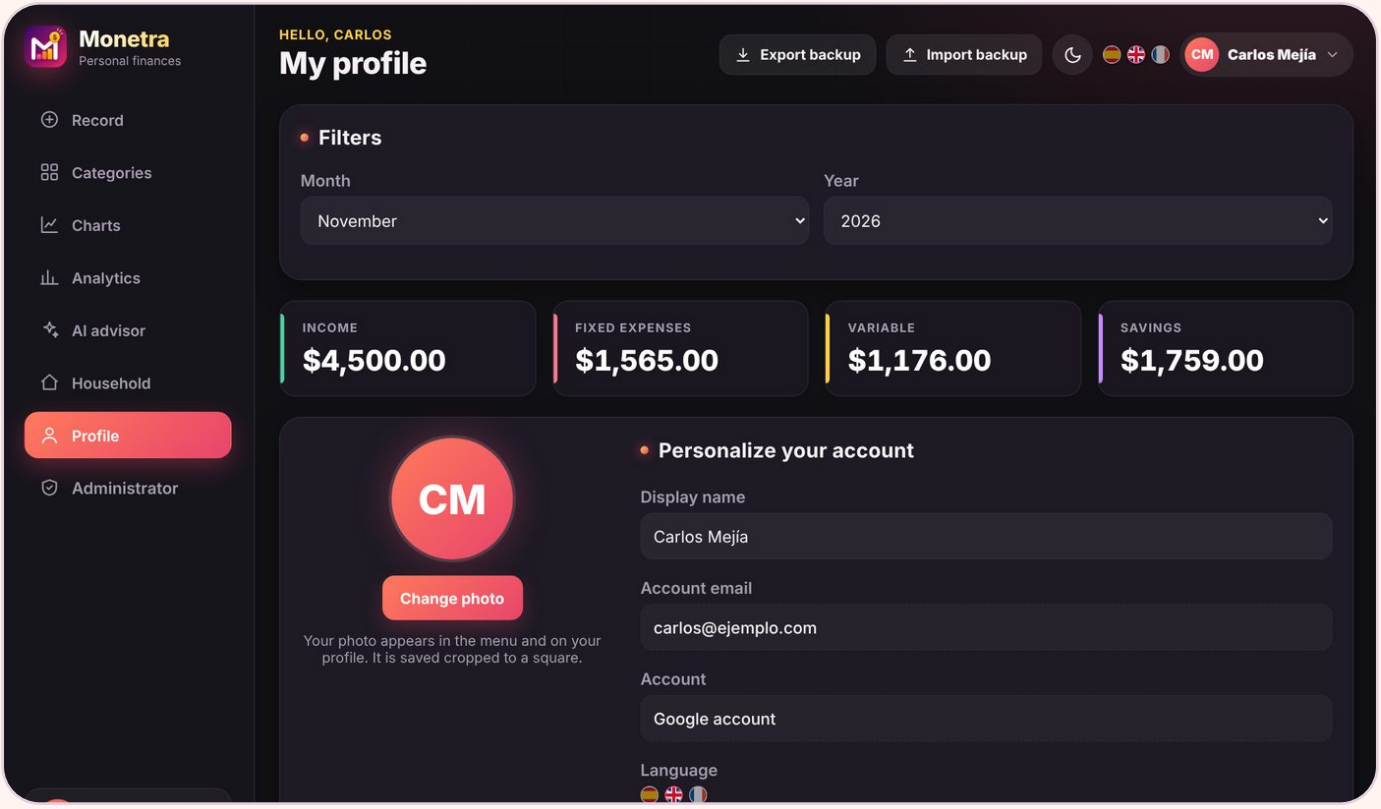

Share income and expenses with your partner or family.

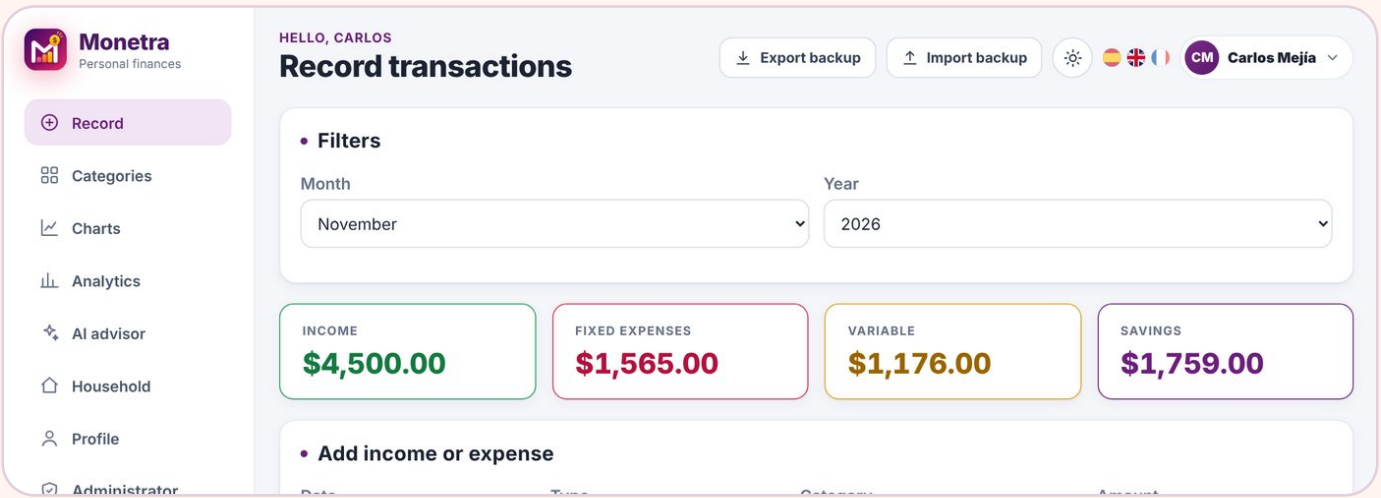

1. Open Household and press "Create household". An invitation code is generated.
2. The other person creates an account, opens Household and enters the code.
3. Switch between Personal and Household with the selector at the top: everyone sees the same entries in real time.
4. You can leave the household whenever you want; your personal data stays yours.

7. Profile, language and light/dark mode

Customize Monetra to your liking.

1. In Profile change your name and upload your photo (it is cropped to a square automatically).
2. The moon or sun button at the top right switches between dark and light mode. It is remembered in your browser.
3. The flags change the language: Spanish, English or French.
4. From your photo, at the top right, you can open your profile or Sign out.

8. Tips and FAQ

Log daily
Spending 1 minute a day prevents forgetting small expenses that add up.

Check your score every month
Compare it with the previous month and set a goal: save 20% of your income.

Emergency fund first
Before investing, build 3 to 6 months of expenses.

Is it free?
Yes. You can create your account and use Monetra at no cost.

Does it work offline?
You need a connection to save and sync your entries.

Can I use it on my phone?
Yes. Open it in the browser and add it to your home screen from the browser menu.

Is my data private?
Yes. Each account sees only its own information; the household is shared only with whoever has your code.

Does the AI replace an advisor?
No. It offers educational guidance and does not guarantee returns.
